

Preliminary Programme Thursday 08 Oct			
	PLENARY	COMPLEX	LIVE
09:00-09:40	Optimal Gastroscopy Technique † Intubation, Withdrawal and Lesion Detection		Live Gastroscopy Technique Focus on Lesion Characterisation
09:40-10:10	Imaging in the Lower GI Tract † Endoscopic Resection or Surgery?		Live Colorectal Imaging Focus on Lesion Characterisation
10:10-10:45	Cold Snare Polypectomy † Safe, Quick and Effective		Live cold snare technique Focus on the Basics
10:45-11:00	Morning Tea		
11:00-12:00	Hepatology in Endoscopy Symposium † Banding, Glue and Proper Assessment	Hot Snare Polypectomy [EMR] † Complete Resection, Preventing Recurrence	Live Hepatology Cases Best Practice Techniques
12:00-12:45	Malignancy † Detection, Description and Marking	Complex Polypectomy [EMR ≥ 20mm] Evidence & where does it Fit into my Practice? To include Piecemeal Cold Snare	Live Big Polyp Best Practice Techniques
12:45-13:45	Lunch		
13:45-14:15	Barrett's Oesophagus Assessment, Description, Dysplasia and Referral		Live Barrett's Focus on Detection of Dysplasia
14:15-14:45	How to Improve your ADR † Preparation, Caps, Light and Timing	The Role of Endoscopic Submucosal Dissection (ESD) Throughout the GI Tract, where it Fits my Practice	
14:45-15:15	Informatics in the Drive for Quality Structured Reporting, National Datasets and AI	Bringing it Together in the Colon † Specific Polyp - which Technique, Rectum Specific Algorithm, when to Refer	Live ESD Focus on Lesion Assessment
15:15-15:30	Afternoon Tea		
15:30-16:30	Room & Generator Setup for Polypectomy † Which Personel, Which Kit, Which Settings	Assessment + Treatment of Sphincters EndoFlip, Manometry and POEM	Live Sphincter Assessment How does it Fit into Everyday Practice?
16:30-16:45	Endoscopic Dilatation and Stents † Quality in Established Techniques, New Technology	Serrated Polyps + Polyposis † How to Detect, Characterise and Resect	Live Serrated Polyposis Case Safe and Complete Resection
16:45-17:00	Conclusions and Wrap-up GIEQs

OCTOBER 2020

Ghent International Endoscopy Quality Symposium

To all endoscopists, endoscopy nurses and trainees

We are delighted to invite you to Ghent (Belgium) for the first edition of the

Ghent International Endoscopy Quality Symposium (GIEQs), scheduled for October 7-8, 2020.

Pronounced 'geeks' ¹, GIEQs is a symposium dedicated to **everyday techniques** in Endoscopy. We believe quality in endoscopy means applying technical competence and published evidence to everything from a diagnostic gastroscopy to a circumferential ESD. You can watch our teaser video or read more at our mission statement on the symposium website at

www.gieqs.com

¹ someone who is very interested in a particular subject and knows a lot about it

gieqs_flyer_A5_FINAL.indd 2-3

25/02/20 17:11

The GIEQs faculty will comprise renowned international experts responsible for driving quality in Endoscopy, including **Professor Michael Bourke, Associate Professor Steven Heitman, Professor Raf Bisschops, Drs Roland Valori and John Anderson and Dr Jan-Werner Poley.**

The majority of established endoscopy symposia focus on complex techniques performed in tertiary centres. GIEQs will focus on the opposite end of the spectrum. **By holding a 2-day international symposium with a world-class faculty, focused on everyday techniques in Endoscopy, we hope to start a renewed drive towards quality in all endoscopic procedures in Belgium and throughout Europe.**

GIEQs is aimed at everyone practising endoscopy; there will be specific sessions for physicians, trainees and a separate nursing symposium for endoscopy nurses - a first in Belgium!

We look forward to you joining us in Ghent on October 7-8, 2020!

LOCAL ORGANISING
COMMITTEE

Dr David Tate
(UZ Gent, Belgium)

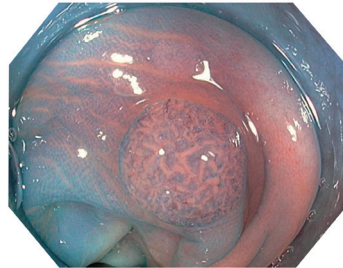

Prof Dr Pieter Hindryckx
(UZ Gent, Belgium)

Prof Dr Hans Van Vlierberghe
(UZ Gent, Belgium)

Prof Dr Danny de Looze
(UZ Gent, Belgium)

Dr Lobke Desomer
(AZ Delta, Belgium)

Mrs Tania Helleputte
(UZ Gent, Belgium) - [nursing symposium]

OCTOBER 7-8, 2020 · GHELAMCO ARENA GHENT

Early bird deadline: June 25, 2020

Preliminary Programme Wednesday 07 Oct

	PLENARY	COMPLEX	LIVE
08:45-09:00	Introduction to GIEQS Introduction to Quality in Endoscopy		
09:00-10:00	Optimal Colonoscopy Technique † Intubation, Withdrawal and Diminutive Polyps		
10:00-10:45		Live ERCP Technique Papillary Morphology versus Technique	Live Colonoscopy Technique Quicker, Painless Intubation
10:45-11:00	Morning Tea		
11:00-12:00	GI Bleeding Symposium † Techniques for Effective Hemostasis	Basic ERCP Symposium Stones, Stents and Strictures	Live GI Bleeding / ERCP Best Practice Techniques
12:00-12:45	Difficult GI Bleeding Use of New Techniques as First Line	Difficult Cannulation Prediction, Preparation and When to Refer	
12:45-13:45	Lunch		
13:45-14:15	Principles of Endoscopic Imaging in the GI Tract † The 'Demarcated Area' - a Predictor of Invasion		
14:15-15:15	Principles of Endoscopy Unit Design and Management The Global Rating Scale and Exportability	Management of Adverse Events at ERCP † Pancreatitis, Bleeding and Perforation	
15:15-15:30	Afternoon Tea		
15:30-16:30	IBD in Endoscopy Symposium † Comprehensive Endoscopic Assessment of Activity	Basic EUS † Quality Standardised Examination	Live IBD / EUS Chromoendoscopy and Technique
16:30-17:00	Endoscopic Management of Strictures in IBD Balloon, Incision or Surgery	Unit Setup for EUS / ERCP Equipment, Settings and Personnel	
17:00-17:15	Break		
17:15-18:00	Artificial Intelligence in Endoscopy Implications, Ethics and Future Directions	Interventional EUS Symposium Role in Everyday Practice, Referral Criteria	AI Live Current State of the Tech
19:30	Conference Dinner		

Trainees sessions

We believe that building quality in a practical discipline such as Endoscopy must focus on training and the evidence behind how to train effectively.

† Indicates sessions particularly relevant for trainees

Nursing Symposium

We will introduce a separate nursing congress for a half day during GIEQs; talks will be focused on the issues relevant to nurses and be given by national and international nursing leaders, in addition to the medical faculty. The programme will be delivered in 3 languages (English, Dutch, French). For the preliminary programme, check www.gieqs.com
