WED 07 & THU 08

GHENT INTERNATIONAL ENDOSCOPY QUALITY SYMPOSIUM GHELAMCO ARENA. GHENT. BELGIUM

This is something completely different.

An endoscopy symposium focussed on how to do every-day endoscopy. Better. Practical advice. Live demonstration of techniques. Quality Parameters. All joined-together in an innovative programme. Delivered by interventional world experts. Asked to focus on the basics.

No matter whether you are a trainee or have already practised many years.

Together we can do every-day endoscopy better.

Quality in endoscopy means applying technical competence and published evidence to everything from a diagnostic gastroscopy to a circumferential endoscopic resection

Preliminary Programme

Papillary Morphology versus Technique 10:45-11:00 Morning Tea 11:00-12:00 Gl Bleeding Symposium † Basic ERCP Symposium Stones, Stents and Strictures 12:00-12:45 Difficult Gl Bleeding Use of New Techniques as First Line Difficult Cannulation Prediction, Preparation and When to Refer 12:45-13:45 Lunch Principles of Endoscopic Imaging in the Gl Tract † The 'Demarcated Area' – a Predictor of Invasion 14:15-15:15 Principles of Endoscopy Unit Design and Management The Global Rating Scale and Exportability Afternoon Tea 15:30-16:30 IBD in Endoscopy Symposium † Basic EUS † Live IBD / EUS		Wednesday 7th October				
OS-45-09:00 Introduction to Quality in Endoscopy O9-00-10-00 Optimal Colonoscopy Technique Intubation, Withdrawal and Diminutive Polyps Live ERCP Technique Papillary Morphology versus Technique Quicker, Painless Intubation O-00-10-45 Live ERCP Technique Papillary Morphology versus Technique Quicker, Painless Intubation O-45-11-00 O-45-11-0		PLENARY	COMPLEX	LIVE		
Intubation, Withdrawal and Diminutive Polyps Live ERCP Technique Papillary Morphology versus Technique Quicker, Painless Intubation Morning Tea 11:00-12:00 GI Bleeding Symposium † Techniques for Effective Hemostasis 12:00-12:45 Difficult GI Bleeding Use of New Techniques as First Line Prediction, Preparation and When to Refer 12:45-13:45 Principles of Endoscopic Imaging in the GI Tract † The 'Demarcated Area' - a Predictor of Invasion 14:15-15:15 Principles of Endoscopy Unit Design and Management The Global Rating Scale and Exportability 15:30-16:30 Bib in Endoscopy Symposium † Comprehensive Endoscopic Assessment of Activity Quality Standardised Examination Basic EUS † Quality Standardised Examination Basic EUS Comprehensive Endoscopy and Technique Find Scale Intelligence in Endoscopy Intelligence in Endoscopy Interventional EUS Symposium Role in Everyday Practice, Referral Criteria Al Live Current State of the Tech	08:45-09:00					
Papillary Morphology versus Technique Quicker, Painless Intubation	09:00-10:00					
11:00-12:00 GI Bleeding Symposium † Techniques for Effective Hemostasis Stones, Stents and Strictures Best Practice Techniques 12:00-12:45 Difficult GI Bleeding Use of New Techniques as First Line Difficult Cannulation Prediction, Preparation and When to Refer 12:45-13:45 Lunch 13:45-14:15 The 'Demarcated Area' - a Predictor of Invasion The 'Demarcated Area' - a Predictor of Invasion The Global Rating Scale and Exportability Pancreatitis, Bleeding and Perforation 15:15-15:30 Afternoon Tea 15:30-16:30 BD in Endoscopy Symposium † Comprehensive Endoscopic Assessment of Activity Quality Standardised Examination Chromoendoscopy and Technique Endoscopic Management of Strictures in IBD Balloon, Incision or Surgery Best Practice Techniques 17:15-18:00 Artificial Intelligence in Endoscopy Interventional EUS Symposium Al Live Current State of the Tech	10:00-10:45			Live Colonoscopy Technique Quicker, Painless Intubation		
Techniques for Effective Hemostasis 12:00-12:45 Difficult GI Bleeding Use of New Techniques as First Line Difficult Cannulation Prediction, Preparation and When to Refer Lunch Lunch Principles of Endoscopic Imaging in the GI Tract † The 'Demarcated Area' - a Predictor of Invasion Principles of Endoscopy Unit Design and Management The Global Rating Scale and Exportability Afternoon Tea 15:30-16:30 BBD in Endoscopy Symposium † Comprehensive Endoscopic Assessment of Activity Comprehensive Endoscopic Assessment of Activity Endoscopic Management of Strictures in IBD Balloon, Incision or Surgery Break 17:15-18:00 Artificial Intelligence in Endoscopy Implications, Ethics and Future Directions Stones, Stents and Strictures Difficult Cannulation Prediction, Preparation and When to Refer Lunch Lunch Lunch Lunch Adverse Events at ERCP † Pancreatitis, Bleeding and Perforation Afternoon Tea Live IBD / EUS Chromoendoscopy and Techniqu Unit Setup for EUS / ERCP Equipment, Settings and Personnel T:00-17:15 Break Al Live Current State of the Tech	10:45-11:00	Morning Tea				
Use of New Techniques as First Line	11:00-12:00					
13:45-14:15 Principles of Endoscopic Imaging in the GI Tract † The 'Demarcated Area' - a Predictor of Invasion 14:15-15:15 Principles of Endoscopy Unit Design and Management The Global Rating Scale and Exportability 15:15-15:30 Afternoon Tea 15:30-16:30 IBD in Endoscopy Symposium † Comprehensive Endoscopic Assessment of Activity 16:30-17:00 Endoscopic Management of Strictures in IBD Balloon, Incision or Surgery 17:00-17:15 Break 17:15-18:00 Artificial Intelligence in Endoscopy Interventional EUS Symposium Role in Everyday Practice, Referral Criteria Al Live Current State of the Tech	12:00-12:45					
The 'Demarcated Area' - a Predictor of Invasion 14:15-15:15 Principles of Endoscopy Unit Design and Management The Global Rating Scale and Exportability 15:15-15:30 Afternoon Tea 15:30-16:30 IBD in Endoscopy Symposium † Comprehensive Endoscopic Assessment of Activity Endoscopic Management of Strictures in IBD Balloon, Incision or Surgery 17:00-17:15 Break Artificial Intelligence in Endoscopy Invasion The 'Demarcated Area' - a Predictor of Invasion Management of Adverse Events at ERCP † Pancreatitis, Bleeding and Perforation Afternoon Tea Live IBD / EUS Chromoendoscopy and Technique Unit Setup for EUS / ERCP Equipment, Settings and Personnel Break 17:15-18:00 Artificial Intelligence in Endoscopy Interventional EUS Symposium Role in Everyday Practice, Referral Criteria Al Live Current State of the Tech	12:45-13:45	Lunch				
The Global Rating Scale and Exportability Pancreatitis, Bleeding and Perforation Afternoon Tea Basic EUS † Comprehensive Endoscopic Assessment of Activity Endoscopic Management of Strictures in IBD Balloon, Incision or Surgery Divide Interventional EUS Symposium Artificial Intelligence in Endoscopy Interventional EUS Symposium Role in Everyday Practice, Referral Criteria Pancreatitis, Bleeding and Perforation Afternoon Tea Live IBD / EUS Chromoendoscopy and Technique Live IBD / EUS Chromoendoscopy and Technique Divide Interventional EUS Symposium Role in Everyday Practice, Referral Criteria Al Live Current State of the Tech	13:45-14:15					
15:30-16:30 IBD in Endoscopy Symposium † Comprehensive Endoscopic Assessment of Activity 16:30-17:00 Endoscopic Management of Strictures in IBD Balloon, Incision or Surgery Break 17:15-18:00 Artificial Intelligence in Endoscopy Implications, Ethics and Future Directions Basic EUS † Quality Standardised Examination Unit Setup for EUS / ERCP Equipment, Settings and Personnel Break Interventional EUS Symposium Role in Everyday Practice, Referral Criteria Live IBD / EUS Chromoendoscopy and Technique Chro	14:15-15:15					
Comprehensive Endoscopic Assessment of Activity 16:30-17:00 Endoscopic Management of Strictures in IBD Balloon, Incision or Surgery Ditt Setup for EUS / ERCP Equipment, Settings and Personnel Break 17:15-18:00 Artificial Intelligence in Endoscopy Implications, Ethics and Future Directions Chromoendoscopy and Technique Unit Setup for EUS / ERCP Equipment, Settings and Personnel Break Artificial Intelligence in Endoscopy Implications, Ethics and Future Directions Al Live Current State of the Tech	15:15-15:30	Afternoon Tea				
Balloon, Incision or Surgery Equipment, Settings and Personnel Break 17:15-18:00 Artificial Intelligence in Endoscopy Interventional EUS Symposium Role in Everyday Practice, Referral Criteria Al Live Current State of the Tech	15:30-16:30			Live IBD / EUS Chromoendoscopy and Technique		
17:15-18:00 Artificial Intelligence in Endoscopy Interventional EUS Symposium Role in Everyday Practice, Referral Criteria Al Live Current State of the Tech	16:30-17:00					
Implications, Ethics and Future Directions Role in Everyday Practice, Referral Criteria Current State of the Tech	17:00-17:15	Break				
19:30 Conference Dinner	17:15-18:00					
	19:30	Conference Dinner				

ational

Thu	ursday 8t	th October	
		COMDLEY	

	FLLIMIT	COMPLEX	LIVL
09:00-09:40	Optimal Gastroscopy Technique † Intubation, Withdrawal and Lesion Detection		Live Gastroscopy Technique Focus on Lesion Characterisation
09:40-10:10	Imaging in the Lower GI Tract † Endoscopic Resection or Surgery?		Live Colorectal Imaging Focus on Lesion Characterisation
10:10-10:45	Cold Snare Polypectomy † Safe, Quick and Effective		Live cold snare technique Focus on the Basics
10:45-11:00	Morning Tea		
11:00-12:00	Hepatology in Endoscopy Symposium † Banding, Glue and Proper Assessment	Hot Snare Polypectomy [EMR] † Complete Resection, Preventing Recurrence	Live Hepatology Cases Best Practice Techniques
12:00-12:45	Malignancy † Detection, Description and Marking	Complex Polypectomy [EMR ≥ 20mm] Evidence & where does it Fit into my Practice? To include Piecemeal Cold Snare	Live Big Polyp Best Practice Techniques
12:45-13:45	Lunch		
13:45-14:15	Barrett's Oesophagus Assessment, Description, Dysplasia and Referral		Live Barrett's Focus on Detection of Dysplasia
14:15-14:45	How to Improve your ADR † Preparation, Caps, Light and Timing	The Role of Endoscopic Submucosal Dissection (ESD) Throughout the GI Tract, where it Fits my Practice	
14:45-15:15	Informatics in the Drive for Quality Structured Reporting, National Datasets and Al	Bringing it Together in the Colon † Specific Polyp –which Technique, Rectum Specific Algorithm, when to Refer	Live ESD Focus on Lesion Assessment
15:15-15:30	Afternoon Tea		
15:30-16:00	Room & Generator Setup for Polypectomy † Which Personel, Which Kit, Which Settings	Assessment + Treatment of Sphincters EndoFlip, Manometry and POEM	Live Sphincter Assessment How does it Fit into Everyday Practice?
16:00-16:45	Endoscopic Dilatation and Stents † Quality in Established Techniques, New Technology	Serrated Polyps + Polyposis † How to Detect, Characterise and Resect	Live Serrated Polyposis Case Safe and Complete Resection
16:45-17:00	Conclusions and Wrap-up GIEQs		

Faculty

Prof. Michael Bourke (Sydney, Australia)

A/Prof. Steven Heitman (Calgary, Canada)

Dr Roland Valori (Gloucester, UK)

Dr John Anderson (Cheltenham, UK)

Dr Jan Werner Poley (Rotterdam, Netherlands)

Dr David Tate (UZ Gent)

Prof. Pieter Hindryckx (UZ Gent)

Prof. Danny DeLooze (UZ Gent)

Prof. Hans Van Vlierberghe (UZ Gent)

Prof. Raf Bisschops (UZ Leuven)

Dr Lobke Desomer (AZ Delta, Roeselare)
